Portfolio: <https://github.com/Aquib7222/aquibshahzadaportfolio>

PROFESSIONAL SUMMARY

Full Stack Java Developer with hands-on experience building secure, scalable web applications using Java, Spring Boot, Spring Security, JWT, REST APIs, React, JavaScript, and MySQL. Experienced in designing role-based systems, modular SaaS platforms, database-backed applications, responsive dashboards, and production-oriented application workflows. Strong understanding of backend development, API integration, authentication, CRUD operations, debugging, and full-stack application development.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML5, CSS3

Frontend: React.js, Bootstrap, Responsive UI, React Router

Tools: Git, GitHub, Postman, JSON, Maven, Axios

Backend: Spring, Spring Boot, Spring Security, REST APIs, JWT

Database: MySQL, JPA, Hibernate, SQL, Query Optimization

Concepts: OOP, SOLID Principles, RBAC, SaaS Architecture, MVC

PROFESSIONAL EXPERIENCE

Skoodle Learning Pvt Ltd, Bengaluru | Java Developer | April 2024 – March 2025

- Developed and enhanced ERP modules using Java, Spring Boot, React, and MySQL.
- Implemented secure authentication, authorization, role-based access control, and REST APIs.
- Worked on frontend-backend integration, database design, CRUD operations, debugging, and system optimization.
- Contributed to modular application workflows and production-oriented web application development.

PROJECT EXPERIENCE

School Management SaaS Platform - Zyntaks Education | React.js, Spring Boot, MySQL, JWT

Live Website: <https://zyntaks.in>

- Developed a full-stack, role-based school-management SaaS platform for managing school operations through a centralized web application.
- Implemented secure authentication and authorization using Spring Security, JWT, and role-based access control for platform administrators, school super administrators, teachers, and students.
- Built modular school-management workflows covering admissions and enquiries, student profiles, teacher management, attendance, fee management, assessments, transport, transfer certificates, reports, notifications, and dashboard modules.
- Designed and integrated RESTful APIs with Spring Boot, JPA/Hibernate, and MySQL for reliable data management and frontend-backend communication.
- Created responsive React dashboards and reusable UI components with React Router, Bootstrap, Axios, search, filtering, pagination, Excel import, PDF generation, and interactive data views.
- Implemented multi-school SaaS concepts including school-wise data access, module/menu mapping, user-group mapping, permissions, and school administration workflows.
- Worked on deployment and production configuration for a hosted application, including environment-based configuration, database connectivity, file uploads, and application debugging.

Sunglasses E-Commerce Application | React.js, Spring Boot, Spring Security, JWT, MySQL

- Built a full-stack e-commerce application with secure JWT-based authentication and role-aware application access.
- Implemented product management, shopping cart, order workflows, REST APIs, and database integration using JPA/Hibernate and MySQL.
- Developed responsive React interfaces and integrated frontend components with Spring Boot backend services.

Hospital Management System | HTML, CSS, JavaScript, Bootstrap

- Developed a responsive frontend with dashboards, forms, interactive components, and client-side validation.

- Organized reusable UI sections for a healthcare-management workflow using HTML, CSS, JavaScript, and Bootstrap.

Additional Projects: Calculator, Weather App, and Tic Tac Toe using HTML, CSS, and JavaScript.

EDUCATION

B.Tech in Computer Science Engineering

Jai Narain College of Technology | 2019–2023

Intermediate (12th)

H.R.B.D.B College, Siswan , Siwan | 2019

Matriculation (10th)

Indian Public School | 2016

ADDITIONAL INFORMATION

Open to Java Developer, Full Stack Developer, Spring Boot Developer, and Web Developer opportunities. Interested in backend engineering, SaaS products, API development, database design, and scalable web applications.
